PROFILE

I am a Full Stack Developer. My key skills include HTML, CSS, JavaScript, JQuery, ReactJS, Node.js, APIs and MongoDB. I have successfully created a captivating website showcasing our clothing brand. I am highly organized and efficient with strong problem-solving skills and a passion for creating engaging user experiences. I have a positive attitude and an excellent work ethic and enjoy working in teams to achieve success.

PROJECTS

snazzyNagar: Product listing platform <https://snazzynagar.netlify.app/>

Jul-2023

- Contains a feature section on home and can navigate to different routes which are featured in header.
- In Products routes we can choose desired product and add them into our cart, and we can make changes in our cart section for choosing number of products.
- Tech used - HTML, CSS, JavaScript, React, node.js, express, MongoDB, Mongoose and many more.

YouTube Chatbot extension

July 2024

- A web extension that allows users to interact with a chatbot capable of understanding and responding based on the content of a YouTube video.
- Provides a chat interface embedded within the YouTube page.
- The backend server processes the request using a Generative AI model to generate responses based on the video URL.
- Automatic popup after opening any YouTube URL

The Rick and Morty Character Finder

<https://therickandmortycharacterapi.netlify.app/>

Dec-2023

- Developed an interactive web page showcasing Rick and Morty characters.
- Implemented search functionality allowing users to easily find characters based on their input.
- Integrated pagination for a user-friendly browsing experience, improving accessibility.
- Tech used - HTML, CSS, JavaScript, and React

EXTRA-CURRICULAR ACTIVITIES

- Part of the Fine-Art which oversees all the decoration in Moksha-22.
- Gaming team captain for Moksha-21.
- I successfully led the team responsible for organizing and hosting the VR Gaming Event at Moksha-22, ensuring a flawless and enjoyable experience for all participants. Successful execution of event with 500 participants.
